Diagram of typical section showing system
used in locating streets within

PREFACE

In 1855, by Ordinance 165, the Council of Cincinnati revised the names of all the streets in the territory then called the City of Cincinnati.

The various annexations of Villages to the City in the course of time and up to date made further changes necessary, all of which are mentioned in this list of street names which is published as a Key to our new and latest map of Cincinnati.

Official names which were used before 1855 and not re-established in Ordinance 165 are printed in the back of this list; so are the names of streets in Cheviot, Elmwood, Kennedy Heights, Norwood, St. Bernard and Silverton.

ABBREVIATIONS

n, north; s, south; e, east; w, west; n e, northeast; n w, northwest; s e, southeast; s w, southwest; c, center; c e, center east; c n e, center northeast; etc., etc. See Sketch A.

HOW TO LOCATE A STREET NAME ON THE MAP

1. Look for street name in the alphabetical list of present names. If not there, look for same in the alphabetical list of former names, where also will be found the correct present name.

2. Note the location of Township, Section, and the location within the Section.

3. Sketch B shows where to locate on the map the Township and Section.

Sketch A shows exactly where to locate the name on the map within that Section.

EXAMPLE: Wieman Av., Cin. 36 c w. Cincinnati Township, Section 36. Sketch B shows this township and section at a glance, and Sketch A shows that it is located center west, that is, west from the center and between c n w and c s w.

EXAMPLE: Fenner St. Fenner St. can not be found amongst the present names, because it is an old name. Look for it in alphabetical list of Former Names Fenner St. is now Linden St. Look for Linden St. and find M. Cr. 26 c s and s e.

Millcreek Township, Section 26. See Sketch B.

Center south and southeast. See Sketch A and map.
